DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The incorporation of a reference citation in claim 3, specifically Grosse and Mativy, *J. Org.Chem.* 5, 106 (1940), in order to describe a preparation method is improper. Second, the missing method steps, which the citation intended to remedy, amounts to a gap between steps. See MPEP § 2172.01.
4. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the cyclisation steps of a compound of formula II. The recited steps in claim 6 only are directed to the formation of a crude reaction product as described in claim 1.

Allowable Subject Matter

5. Claims 1, 2, 4 and 5 are allowed over the prior art of record. The prior art of record does not disclose or teaches the use of the reagent $R_3Al_2X_3$ for the preparation of crude $MeAlCl_2$ reaction product.
